Evolución temporal para $Q = \alpha\rho$ con $\nu > 1$
Densidad de energía
Factor de escala
Parámetro de Hubble
Valores de ν
$\nu = 1.2$
$\nu = 1.5$
$\nu = 2$
Valores de α
$\alpha = -0.3$
$\alpha = 0$
$\alpha = 0.3$
$\rho(t)$
$a(t)$
$H(t)$
